

**UK Underwater Kinetics**  
*Uncompromising performance since 1971*

**UK# 09007**

**\$19.03**

Our Mini Pocket Light is uniquely powerful, small, and sturdy. Weighing only 1.3 oz., the MPL clips to almost anything so it is always ready when you need light. It comes with a key ring and clip for easy attachment to your hat, clothing or belt

**UK# 09012**

**\$19.03**

The Mini Pocket Light clips to helmets, hats, or clothing for hands free lighting while doing repairs, maintenance, walking in the dark or diving.

**UK# 10001**

**\$35.95**

The most compact light in its class, so it can go anywhere you go, via pocket, belt pouch, or helmet clip. It features an entirely waterproof design for all weather use. **Thermal Recovery System** recycles heat from the LED to warm batteries for improved performance in low temperatures.

**UK# 13201**

**\$20.46**

Out of the shirt pocket or tool box, the 2AAA Penlight S is ideal for close-up inspections, night-time repairs or navigating in the dark. Its non-conductive high impact case allows use around circuitry or electricity.

**UK# 14107**

**\$36.96**

This fully accessorized work light can be mounted on a hard hat or fire helmet, carried in a belt pouch or used to direct traffic. A necessity for confined space workers, utilities, municipalities, firefighters, safety inspectors, etc.

**UK# 14431**

**\$55.93**

compact design that can be operated with gloves. Its LED lamp is ultra-bright, long-lasting and provides a wide beam for superior illumination. **Thermal Recovery System** recycles heat from the LED to warm batteries for improved performance in low temperatures.

**UK# 14819**

**\$18.99**

Attach a high intensity UK4AA or 3AA light to any hard hat or fire helmet for hands-free illumination!

**UK# 17007**

**\$23.80**

For superior hands-free illumination in every situation, count on the Vizion I. Hit it, freeze it, dunk it—it will keep on working. Remarkably lightweight and waterproof. **Thermal Recovery System** recycles heat from the LED to warm batteries for improved performance in low temperatures
